First Transport Will Sail For Manilla Tonight.

WASHINGTON, May 21.-Advices received at the war department yesterday indicate that by tonight the City of Peking, which is to carry troops and supplies to Manilla, will have started on its way from San Francisco. Over 1,000 men will be aboard her. Following the Peking will be the steamers City of Sydney and the Australia, which, the department was advised yesterday, would be turned over today ready for loading. This work, it is hoped, can be accomplished in a few days, so that the second steamer to re-enforce Admiral Dewey will be close in the wake of the

Secretary Melklejohn yesterday char-tered another vessel to be used for transport purposes across the Pacific. This is the Zealandia of the Ocean Steamship company, which can carry 800 men. She is 377 feet long, 37 feet beam and is of 2,600 tons burden. The Zealandia is now sailed under a toreign flag, and Mr. Meiklejohn has communicated with congress with a view to legislation that will give her an American register, General Wesley Merritt was at the war department nearly all day yesterday in consultation concerning the troops which are to be allotted to him for the work he has in hand. Up to this time it has been decided to give neat Ocietal him the greater portion of the Pour-

teenth infantry, now on the Pacific coast; the entire Eighteenth and Twenty-third regiments of infantry, two batteries from the Third artillery and four troops of cavalry. The remainder of the expedition will be made up of volunteers. The department yesterday gave orders sending the battalion of infantry from North Dakota to San Francisco to join the expedition. A NAVAL DEFEAT.

Annapolis Crews Beaten by Pennsylvania's Oarsmen.

ANNAPOLIS, May 21.-The University of Pennsylvania crews won two boat races from the Naval academy on the Severn river yesterday afternoon. The first race, which was two miles straightaway, started at half past 5 o'clock. Both crews took the water simultaneously and for the first half mile rowed side by side at about a 30 stroke. At the mile buoy the visitors led by a few feet, which they gradually stretched during the last mile to two and a Time: Pennsylvania, half lengths. 11:03; Naval academy, 11:13.

The second race between the second crews was for a mileand a halfstraightaway. The Pennsylvanians took a slight lead at the start, which they increased to about a length in the first half mile and about a length at the finish. Time: Pennsylvania, 9:20; Naval academy, 9:30.

McCoy Defeats Rublin.

SYRACUSE, May 21.-"Kid" McCoy. the middleweight champion pugilist, met and defeated Gus Ruhlin, the Ohio giant, here. It was McCoy's first heavyweight contest, and his victory over Ruhlin, to whom he was conceding nearly 30 pounds, stamps him as a likely opponent for either Fitzsimmons or Corbett. The battle was a flerce one. many heavy blows being exchanged. and at the end of the 20 rounds both showed marks of severe punishment. Referee George Siler gave the decision to McCoy, as he was clearly the cleverest boxer and scored the greatest number of blows. Ruhlin was game and stood the punishment unfilinghingly, but he lacked the science of his quicker and lighter opponent.

Mr. Gladstone's Burial Place.

LONDON, May 21.—It is now virtual ly decided that Mr. Gladstone's remains shall be interred in Westminster abbey. Your correspondent learns that the family does not oppose the nation's desire and that the only direction he left was that he should be buried at Hawarden unless there was an unmistakable national wish for an interment at the abbey. Mrs. Gladstone's only objection is the natural wish to be buried in the same grave devoted to her husband, and it is rumored that arrangements are in contemplation whereby this feeling need not prove an insuperable obstacle to a burial in the abbey. Mr. Herbert Gladstone is som-

ne to London to arrange the metter.

THAT PORT A RAT TRAP

If Cervera Doesn't Get Out It Will Go Hard With Him.

BARKER LEAVES STRATEGY BOARD

Polaria Doesn't Want to Go to Havans. Consul Williams' Report-Chances of Spain Getting a Coaling Station at Martinique Slim.

WASHINGTON, May 21.—All of the news that was given out yesterday at the navy department was comprised in the one short bulletin posted at the close of the day stating that the department had information, believed to be authentic, that Admiral Cervera, with his Spanish flying squadron, was at Santiago de Cuba. This went to confirm the newspaper reports and also the Madrid cablegram published yesterday morning, the latter a rather unusual circumstance, for the Spanish bulletins have been notably deceptive ever since the flying squadron left Cadiz. Accepting this statement as correct, it indicates that there is little probability of a hostile meeting between Sampson or Schley and Cervera immediately. Looking over the charts of Santiago de Cuba harbor, the experts soon discovered that the place would be a veritable rat trap for the Spaniards, with its narrow entrance, in which a single American monitor could bottle up the whole Spanish fleet.

The naval strategy board, rechristened of late the war board, is to lose one of its most active and valuable memters in the person of Captain Barker. He leaves Washington today for Hampton Roads to take command of the proteeted cruiser Newark, which has just been extensively repaired at the Norfolk navy yard. It is expected that the Newark will join Sampson's squadron in the West Indies as soon as she can get there.

It has not been determined who will succeed Captain Barker as a member of the war board, a place requiring the very highest professional qualifications and involving a knowledge of strategy as taught scientifically which is not the possession of all naval officers. It may be that the vacancy will not be filled at present, though there has been favorable mention of the name of Admiral Ramsay, retired, in that connection.

Another loss to the department will occur today, when Lieutenant Gibbon er's officers on the Newark. This young officer has displayed the greatest energy in securing for the services of the navy the various naval militia organizations of the states, and as an incident to that work he was obliged to put forth his best efforts to secure the formation of new organizations where none existed and additional battalions in the states that already possessed a naval militia. The great value of this work is shown by the fact that many of the vessels of the auxiliary navy and most of the old monitors that have been commissioned for coast defense purposes are manned almost altogether by the naval militiamen.

The complaints of the shoeless among the volunteers just brought into the army will soon be silenced, as the war department has just placed orders for 290,000 pairs of soldiers' shoes.

A beginning was made yesterday toward the organization of the independent volunteer forces under authority conferred upon the president by special resolution. The national guard will have part in these organizations, which will be made up of engineers, immunes and electricians.

The state department yesterday anncunced that the Polaria, the Hamburg-American line steamer at Key West which was authorized to land certain passengers in Havana, had declined to avail itself of the privilege, so the department is relieved of what promised to be an embarrassing incident and of the necessity of establishing what might prove to be a dangerous precedent.

The department published in the shape of consular reports yesterday some statistics from United States Con-Williams at Manilla. They show that last year out of 322 vessels of all kinds departing from the Philippines, 22 were from the United States, 190 from Great Britain, 29 from Germany and 47 from Spain. The arrivals were about in the same proportion. Mr. Williams' last report is dated April 2, showing a most flourishing condition of the Manilla customs, the receipts for February last exceeding by \$67,940 the receipts for the corresponding month of 1897.

Officials here dismiss as pure invention the story coming from Montreal that Former Minister Polo has succeeded in securing for Spain as a coaling station one of the French islands of St. Plerre and Miquelon, off the Newfoundland coast. At the French embassy the report is treated with indignant contempt, as the French decree of neutrality is blading on the French governor of those islands and effectually prevents the granting of such exceptional privileges as coaling stations. It is not generally known that France possesses these small islands in the north Atlansic. When the French gave up Canada and Newfoundland to Great Britain, it

was provided in the treaty of litrocht

Sighted Six Warships.

NEW YORK, May 21.—The British steamer Mohican, which sailed May 6 from Hull, arrived yesterday. Captain Dickens reports that on May 8, about 10 miles northwest from Bishop's rock, during foggy weather, six large warships passed him. Each had two funnels with two red bands round the forward funnel. One fired two blank shots at the Mohican, which displayed her colors. He was unable to distinguish the ensigns of the cruisers because of the

IN THE SENATE.

Reading of War Revenue Bill Completed. Duniel Against Bond Issue. WASHINGTON, May 21.-At the con-

clusion of yesterday's session of the senate the reading of the war revenue measure had been completed. About seven-eighths of the amendments proposed by the senate committee have been agreed to. Those remaining are quite naturally, the most important in the bill and will provoke a good deal of discussion. The principal amendments yet to be passed upon are those relating to the issue of bonds and certificates of indebtedness, the tobacco tax, the tax on proprietary articles, the issue of greenbacks, the coinage of the silver seigniorage, the issue of silver certificates, the inheritance tax and the tax on corporations. The action upon some of the amendments will be dependent upon that on others. Mr. Aldrich (Rep., R. I.) yesterday offered as a substitute for the paragraphs relating to the coinage of the seigniorage, the issue of silver certificates and the issue of legal tender notes the bond provision prepared by the Republican minority of the committee on finance. If the bond provision should be accepted by the senate, the amendments offered by the Democrats in lieu of it will naturally be rejected.

Mr. Daniel (Dem., Va.) delivered an extended speech strongly opposing an issue of bonds and supporting the substitute paragraphs proposed by the Democratic majority of the finance committee.

All but Two Regiments of New York National Guard Mustered In.

CAMP BLACK, HEMPSTEAD, N. Y. May 21.-There are but two regiments of the national guard of the state of New York now stationed here. They are the Twenty-second of New York and the Forty-seventh of Brooklyn. Captain Schuyler, the recruiting officer, did a full day's work yesterday. Early in the morning he mustered in Troop A of New York and then Troop C of Brooklyn. He placed Captain Badgley of the New York troop in command of both troops because of senlority, he having been mustered into the volunteer army first. General Smith and his staff broke camp early and rode into town. They went through Mineola and had lunch at Jamaica. General Butt is the only commanding officer of a brigade left here. He may be relieved by Monday.

Arms on the Argonauta. REY WEST, May 21.-Over 40 cases

of ammunition were found yesterday on the Spanish steamer Argonauta. captured during the first days of the war. It was on board this steamer that Lieutenant Colonel Cortljo, Weyler's brother-in-law, was captured, with other Spanish soldiers, now prisoners in Fort McPherson, Atlanta.

The discovery of the war supplies on board the Argonauta will not change the status of her case before the prize court, as it had already been decided yesterday before learning of the find that the steamer was legitimately a prize of war, no claims having been filed by the owners of the ship or cargo, A like decision was rendered in the cases of the steamer Ambrosio Bolivar and the schooners Candidita, Mathilda and Sophia. The only formality remaining to make these vessels the absolute property of the United States is the confirmation by the federal court authorities of the findings of the prize commission. The cases of the Buena Ventura, the

first capture of the war, and the Pedro. Catalina, the Miquel Jover, the Panamo and the Guido, all large and valuable steamers, will have to be tried in regular form by the United States court, claims having been filed by the owners of the ships and cargoes.

The summons in the cases of the barkentine Frasquito and the brigantine Lorenzo are returnable on Wednesday.

The barkentine Carlos F. Rosas, 750 ions, captured by the New York off Havana on Tuesday, was brought in here yesterday by a petty officer and a prize crew. She has on board a cargo of garlic and Jerked beef. The story of her capture has already been told.

LONDON'S OPINION OF CERVERAL

tion of Angle-Saxon Alliance Disappoints Spanish Statesmen-Trying to Negotiate a Big Loan.

LONDON, May 21.-The Madrid correspondent of The Daily Mail says: "Lieutenant General Correa, minister of war, assures me that nothing definite has been decided upon with respect to the expedition to the Philippines. The government will be guided by circum-

stances. "In official circles here it is believed that Emperor William will not for the moment answer Mr. Joseph Chamberlain's utterances about an Anglo-American alliance, but will wait for a better opportunity for doing so. I am unable to state precisely the reasons why this purpose of the kaiser should be known here earlier than in any other European capital, but it is so and ministers

are most positive about it. "Rumors regarding a new big loan have been in circulation for some time. I know from a good source Senor Pulgcerver, minister of finance, will wait until the cortes is closed before taking action in that direction. He will then negotiate a loan in gold for £12,000,-000 (\$60,000,000) sterling."

A dispatch to The Daily Mail from Las Paimas, the Canary islands, says: "The Spanish torpedo boats Ariete, Azor and Rayo, together with the armored transports San Francisco and Ciudad de Cadiz, arrived here May T from the Cape Verde islands. It is reported that the armament of the latter two has been increased recently. The Rayo is said to be badly in need of repairs.'

The Madrid correspondent of The Times says:

"A newspaper which is occasionally inspired makes the oracular announcement that Senor Leon y Castillo, the Spanish embassador to France, is engaged in effecting rapprochement with the French government for reasons which must not be made public."

The Madrid correspondment of The Standard says:

"Emperor William's silence has cause ed intense disappointment. It had been expected that his speech at Altona would declare in favor of a European coalition against Angio-Saxons, or at least against an American invasion of Spanish colonies. Now the press is fall. ing back on the assistance of Russia of France. If Senor Leon y Castillo, the Spanish embassador to France, returns to Paris, it is probable that Senor Gutierrez Aguera, undersecretary to the council of state, will be gazetted as foreign minister."

The Madrid correspondent of The Daily News says:

"Admiral Cervera's dispatch from Santiago de Cuba to the minister of marine contained further details for the information of the government alone, It is pointed out here that the American plan was to get command of the sea an a condition to future movements. Admiral Cervera's brilliant move-reminding one of Lord Nelson's race from the West Indies to Trafaigar and his escape from the French-deprives America of the command of the seas and demonstrates to the world that the blockade of Cuba is merely nominal.

"Admiral Cervera has given the slip to two powerful fleets that have been scouring the ocean for a fortnight in an endeavor to catch him. All the American schemes depended thereupon. Admiral Cervera, with four cruisers and a few destroyers, alone in the Atlantic, ignoring events in Cuba and in Puerto Rico and the position of the American squadron, has outmaneuvered, disorganized and dispersed the latter, making the Americans believe they were threat. ened on every side.

"The torpedo boats Azor, Rayo and Ariete steamed from the Cape Verde islands to the Canaries with the utmost precaution, hugging the coast by day and covering their lights by night. The Ariete, slightly damaged, was towed by the Cludad de Cadiz, and the transports carried the smaller boats of the Vizcaya, the Almirante Oquendo, the Cristobal Colon and the Infanta Maria Teresa-probably in order that these vessels might be kept cleared in view of possible battle." The Daily Chronicle, on the other

hand, thinks Admiral Cervera has walked into a trap from which he cannot escape, "thanks partly to the imbecility of the Spanish government in publishing his dispatch, which was doubtless done to avert domestic evils." The Daily Chronicle concludes:

"As to hinted negotiations by Spain with the powers, the best answer to them would be an American victory. which we hope to record Monday or Tuesday.

NEW YORK, May 21,-R. G. Dun & Co.'s weekly review of trade says: Growing accustomed to war possibilities, which are mostly far from probabilities of evil, and finding the na ion moving along steadily in its industries, people are grasping the idea that it is throwing away some months of active and profitable life to wait until the warclouds have passed. Western prosperity has so greatly overbalanced timidity of eastern capital that actual business Cone increases. Railroad earnings promise better for May than a month ago for April, and payments through clearing houses in May to date show a gain of

27 per cent over last year. Several large contracts kept back for some weeks because of hostilities have now been placed, and instead of works closing or reducing force returns show the starting of some works long idle and increase of force or of hours at others. Government work occupies many establishments, but it counts for little compared with the expansion in other demand.

The key of the situation is the prosperity of the west, which altogether unprecedented marketing of breadstuffs has caused, with the prospect of good crops to come. These prospects and actual receipts of wheat amounting to 5,876,716 bushels for the week against 2,439,169 last year, with advances also in other grain and cattle, have produced a demand for rails, cars, car materials, fencing, agricultural implements, boots and shoes and all textile goods which was not anticipated from eastern indi-

Latest News From Puerto Rico.

NEW YORK, May 21 .- The New York and Puerto Rico steamer Arkadia, which sailed from San Juan May 14, arrived yesterday and reports that she was in that port two days after the recent hombardment by Rear Admiral Sampson's fleet. Captain Lloyd said that from 15 to 20 Spaniards were killed and about 60 wounded. Many houses were damaged, one of the forts was destroyed and two guns were dismounted. Some of the steamers in port were damaged. The Arkadia was not allowed to bring any mail from Puerto Rico. The Arkadia brought a report that on May 14 a fleet of Spanish war vessels arrived at Aquin bay, Santo Domingo. The fleet was composed of one battleship, three cruisers and four torpedo boats or destroyers, also several supply ships, probably colliers.

-The residence of |Dr. Cauthers, in Monticello, which was badly damaged by fire early on the morning of May 10 caught fire again Saturday night, the 14th and was entirely destroyed. The origin of the second fire is a mystery. Some think that a spark from theformer fire may have been smouldering in the ruins, while others incline to the belief that it may have caught from a stove in which a fire had been started to dry out what was left of the house.

-The large Kiamesha Lake hotel narrowly escaped destruction by fire, Wednesday. Carpenters had been at work on an addition that is being built to the house and during their absence a fire started in the shavings, and the room was soon ablaze, Masons at work on the building were using a bose, which was turned on the fiames and they were soon extinguished. Damage to the amount of perhaps \$50 was done, but had the fire broken out under other conditions the building would almost certainly have been destroyed.

It is with no careless nor indifferent feeling towards the present deeply important conditions, that we say that War News will not detract from the value of our Store News. War is, happily, an abnormal condition, and will pass; but the needs of the individual are constant and never ending. There will be eating and drinking and dressing and housemaking Whatever the news from the Philippines or Carribean, we shall not mix belligerency with business. The store will go on brighter, bigger, better than ever. Our aim will always be the supplying of your needs promptly, inexpensively, dependably and well.

SUPERVISORS. BOARD OF

PRELIMINARY STEPS TOWARD ROAD IMPROVEMENT TAKEN.

Many Mighways, Besignated for Improvement and the State Engineer Asked to Prepare Plans For the Work and Estimate of Cost-in Interesting Discuscion-Other Resolutions Adopted.

The Board of Supervisors met in special meeting at their rooms in Geshen, Friday morning. There was a full attendance and a great many visitors.

Clerk Stubley announced the purposes of the meeting, saying that it was called for the purpose of availing ourselves of the provisions of the Higbie-Armstrong bill, and for the transaction of any other business which may properly come before the Board.

Mr. Bedell, attorney for the Road Improvement Association, explained that at this meeting the Board would merely designage such roads in the county as might be desired to be improved under the provisions of the bill above referred to. After the designation was made, Mr. Bedeil said, the description of the roads would be sent to the State Engineer and Surveyor, who would submit an estimate of the expense of building the roads, and with this furnish the Board with plans, surveys, and profiles of the roads. There would be no expense to the county, as the bill provided that the state must bear the expense of this preliminary work.

Then Washington Wood, of Warwick, made a long speech attacking the general proposition of building roads. After a short discussion of the subject he branched off into personalities and was called to order by the chair.

Mr. Nearpass then moved that but ten minutes be allowed each speaker unless by unanimous consent of the Board.

Mr. Brazee, of Middletown, followed in much the same vein and introduced a resolution in relation to road improvement which was laid over until the afternoon.

Mr. Loughran then introduced a petition handed him by taxpayers along the Newburgh and Cochecton turnpike in his town asking that that it be one of the roads designated for improvement. Mr. Post, of Newburgh, introduced a petition from taxpayers in the town of Newburgh which has similar provisions and refers to the continuation of the same highway.

Mr. Bedell explained that a resolution. which would be introduced at the afternoon session, would cover this road and Mesers. Loughran and Post withdrew their petitions.

A committee was appointed on behalf of the Board at the last meeting to look into the matter of good roads and make a report at this time. That report was not ready at the morning session and Mr. Wells moved that all petitions as to good roads be laid on the table until the committee of the Board should be ready to report.

The following resolutions not connected with the good roads movement were introduced at the afternoon session by Mr. Wells:

Resolved, That the County Clerk be authorized to have an index, made of the names of persons convicted of various crimes by courts of record of Orange county.

Whereas, The heating apparatus at Orange Farm, owing to detective piping and other causes, is inadequate for the purposes for which it was intended and causes much needless expense to the county in the use of mel, and, believing that a water supply for fire and family purposes is necessary, and believing further that many improvements and a saving to the county would result by removing partitions in the upper part of the main building and putting in new floor, using the same under the "ward" eystem, which would do away with the expenses of heating the building separated from the one which contains the boiler, therefore, be it

Resolved. That the Building Committee be authorized to consult with the Superintendents of the Poor in regard to this matter, and that they be given power to act in making such improvements.

The resolution introduced at the afternoon session, inspired by the Good Roads Association and which brought about the discussion, is as follows:

Whereas, It appears that public interest demands the improvement of certain public highways in the county of Orange and the matter having been duly brought before the Board of Supervisors of Orange county at a meeting thereof duly

meeting called; It was resolved that public interest demands the improvement of certain public highways in the county of Orange, and to that end we hereby designate for improvement under the provisions of Chapter 115 of the laws of 1898, the public highways designated and described in the annexed map and descriptions which are hereby made a part of this

resolution. Be it further resolved, that a copy of this resolution be furnished to the State Engineer with a request from this Board of Supervisors that the said State Engineer proceed with all convenient speed to the making and completion of maps, plans and specifications and estimates of cost of the construction of the highways so designated according to the terms and provisions of said Chapter 115 of the

laws of 1898. Then follows the description and designation. The roads named are nearly all main highways. One is from Newburgh to Turners; another from Newburgh to Montgomery; another from Walden to Warwick, via Goshen; the fourth from Newburgh to Middletown; Newburgh to Chester; Pine Bush to Unionville, through State Hill. The next from State Hill to Port Jervis and the

last from Turners to Middletown. This brought out considerable discussion by visitors and members but was

finally adopted. The members voted on the qualiton with the understanding that it was not

BEER AND WHISKEY

It is probable that nearly every man who drinks moderately or immoderately has some disease of the Kidneys, Liver, Bladder or Urinary Organs. More men die of Kidney Disease than are killed in battle.

The usual symptoms are a sediment in the urine after it troquent desire to urinate, particularly at night; pain in making water, and urine that stains linen when it touches it.

Dr. David Kennedy's Favorite Remedy corrects all bad effects upon the Kidneys caused by whiskey and beer, and puts a new element of life in the blood. Those who drink, as well as total abstainers, will find in this time-tried medicine restoration to renewed health and happiness.

that the cost of obtaining the estimates

was not to fall upon the county. The discussion was carried on by Mr. Bedell, Mr. Royce and Emmett Gardner, of Minisink, on behalf of the Road Association, and Hon. W. E. McCormick, of Port Jervie, who spoke for the Beard of Trade of that village. N. W. Howell, of Washingtonville, made an address against it.

The vote was eighteen for, ten against, two absent.

Mr. Boyd then introduced a resolution providing for the appointment of a committee of three by the chair to use their influence with the Engineer to have the work done at once. Mr. Goodsell appointed Mr. Boyd and Ira S. Smith as his associates.

Mesers. Patterson, Moshier, Wood, the committee appointed by the Board to act on its behalf in securing information on the general subject filed a long and important report giving the cost of building of the several kinds of road in several localities and an exhaustive review of law on the subject.

It was filed before any action was taken on the original question.

The following resolution on the death of John M. Wilson, of Newburgh was introduced by Ira S. Smith, of Warwick and was passed by an unaminous vote. the members eignifying their approval by standing:

"Wheneas, Since the last meeting of this body one of its members, John M. Wilson, Supervisor from the first ward of the city of Newburgh, has been removed by death, therefore,

Resolved, That this board remembers the genial qualities of our deceased brother, and his fidelity to the interests committed to his care and attention, and we regret that he had to lay down

the duries of life,

Resolved. That this board learned of
his demise with deep regret, and his widow and family have the heartfelt sympathy of every one of his late asso-

ON THE TIP OF THE JONGUE

Reuben Doremus, Excelsiors' extra driver, had his first experience at Thursday night's fire and the "Hooks" speak very complimentarily of him. He followed Eagles closely to the scene and handled his horses so judiciously that they were in good condition after the long run through the Lake avenue mud.

Reuben is a brother of "Amie," Excelsiors' regular driver.

The advance sale for "Sweet Inniscarra" broke all records. Over \$500 was received by H. S. Dusenberry & Son. There was about \$675 "in the house" when the production was given.

One young lady of this city is cutting out "Nick's" letters and pasting them in a scrap book for future reference. Her collection will be a prized history at the end of this war. "Nick's" letters are dignized and interesting and their contents convey to the reader a sensible idea of the doings at camp, without any attempts at high flown sentiment. Sentiment has as little place in the soldier's life as ice cream plates.

Rev. Philip Mosher, formerly of this city, and now of Niagara Falls, had an experience about six weeks ago which will amuse and interest readers of the ARGUS. He was formerly stationed at Muskegon, Mich., and after going to Niagara Falls received a request to retura to Muskegon and marry a couple who were formerly his parishioners. He performed the ceremony, received a delightfully generous tee, and returned to his hotel after the party had left for Chicago on their honeymoon trip. At his hotel a man said to the rector:

"Do you know that you had no right to marry that couple?"

"Why?" asked the astonished rector. "Because you are not a resident pas-

tor, and Michigan has a protective tariff law in favor of its pastors. This state and Massachusetts forbid the marrying of couples by any but resident pastors."

Rector Mosher was alarmed and made a hasty investigation, only to find that such was the law, and that the marriage as performed was not legal. With all haste he prepared to follow the couple. He learned their hotel address in Chicago, The number of criminal cases to be reached there as soon as possible and the couple were summoned to the hotel parlors and married over again, the laws of Illinois making no distinction as against non-resident rectors, and everything was all right except the rectorwho was \$25 out on his little business transaction.

> The 24th boys may be having hard times at camp these nights, but just now the women in this city are a great deal more worried than the boys. There is a vast army of Spanish June bugs which sneaks out nights and makes life miser-

able for the average woman. "There's one in my back hair" or 'Dear me! I'm stepping on them!" are

frequently heard. The crop of bugs seems larger than ever, and the shock received when one of those scorchers hits you in the back of the neck is terribly suggestive of electro-

MAIL DELIVERY FOR SOLDIERS.

Arrangements Wade Whereby Army and Navy Men Will Get Better Service.

The Postmaster-General has directed that during the continuance of hostilities Walsh, jointly indicted for burglary in between the United States and Spain, the place where a military force is situated for the time being shall be considered the original destination of mail matter addressed to any one in that force, and if the force moves while the letter is in transit, it shall be sent from place to place as rapidly as possible until it reaches the person to whom it is addressed. The plan will insure the delivery of mail to soldiers.

Efforts will also be made to have mail for men on the warships reach them as soon as possible by forwarding it to ports at which the vessels are likely to

HOLSTEINS IN DEMAND.

A Sussex County Breeder Makes Sales

at Good Prices.

From the Succe Independent. Frank Roe, of Augusta, is now one of the leading Holstein cattle breeders in this country. On Thursday of last week he sold \$1,200 worth of Holstein-Fresian cattle. One bull brong it \$600. This buil he has used at the head or his herd for the past four years. He is five years old and will not be delivered to the purchasers until April, 1899. Mr. Roe could have got \$200 more for him if delivered at once. This he refused to do, as he considers the year's use of him worth more than the extra \$200.

In the lot recently sold was one December calf at \$60, one \$50, one \$100, and one yearling at \$110. The demand for Holsteins, with Mr. Roe, is good at fair prices. He has sold fourteen head since February, ten heifers and four bulls. He has sixty head left on his farm.

Thrown from His Wason.

Dr. C. N. Prior was thrown from his wagon at Roberts and North street, Friday night, after a collision with Fred Miles' wagon, while trying to avoid a trolley car. The accident was due to the fact that the doctor's horse, a high strung animal, became unmaneagble. Dr. Prior was not injured. The horse broke from the wagon and was caught at Bradnack's music store.

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is tree from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder and children, as well as adults, can drink it with great benefit. Costs about one-fourth as much as coffee. 15 and 25c.

We are indebted to ex-Alderman A. E Ludington for a copy of the Republican Citizen, a journal published by the anti-Aldridge Republicans of Rochester, for the avowed purpose of breaking the back of the boss of Monroe county. The paper contains much interesting matter, and seems to make it plain that Aldridge is a heavy load for the Republican party to

The canal investigation has just developed an interesting illustration of how the people's money was squandered by Republican State officials. Favored contractors, who were awarded a contract for improving six miles of the canal near Syracuse, at a contract price of \$154,471 were allowed "extras" that have brought the cost up to the enormous sum of \$538,000 and the work is still far from completed. No wonder the \$9,000,-000 appropriated for canal improvement only served to begin the work.

"Please don't tangle me up with instructions," was the reply that Capt. Clark, of the Oregon, sent from Rio Janeiro to the War Board of the Navy Department in reply to a long message telling him how to avoid the Spanish fleet. The War Board ought to have that telegram framed and kept in sight whenever it is tempted to issue orders to naval commanders. The man on the spot is a better judge of what it is best to do than theorists in Washington. Dewey's victory at Manila was possible because he was out of reach of orders from Washington, for the War Board would never have sanctioned his entrance into a mined harbor. We ought to profit now by our experience in the civil war, which was, that so long as military movements were directed from Washington our armies fared indifferently and not until commanders in the field were left untrammeled did the series of victories begin that ended the conflict.

The enterprise of the New York papers in seeking to secure "beats" in war news is at the bottom of the fakes which so disgust the public, and which are having the effect of making them skeptical of all news. The average war correspondent is so anxious to be first that if he hears a wild rumor of any kind he does not wait to investigate it, but at once telegraphs it to his paper as a fact, knowing that if it proves false it will be for. gotten in a day or two, but if it proves to be true, and his paper prints it first, it will have scored a "beat" of which it can boast for a month. It the papers were less enterprising, and the collection of news was left to a conservative and careful central organization like the Associated Press, time would be taken to investigate rumors and reports, and though there would be less of what passes for news, what news there was would be trustworthy, and reliable, and that, above all, is what the public wants.

The city felt the first real shock of war, yesterday, when news came that the 24th had been mustered into the United States service. When the boys marched from their armory on the morning of May 2nd there were many heavy hearts among those who cheered them, but even those heavy hearts were cheered by the vague hope that something night happen, that the services of the company might not be needed, that physical examinations might result in rejection or that those they loved might change their minds and leave the service before mustering in time came. With the news that the company had been mustered in came, however, a realization that the die was inevitably cant and that for two years, unless the war ends sooner, there must be a aundering of family, social and business JOHN LONOVAN, Undertaker and Embalmer ties. With this realization came, too, showels. Lady secters. Open day and night. the haunting fear of wur's perils that the boys must face. No wonder, therefore, that the news of the mustering in of the 24th brought sadness to many hearts and tears to many eyes. It was to those of this generation the first realizing sense of what was means.

OBITUARY.

Mes. Emily Augusta Pettic,

Mrs. Emily Augusta Pettit, wife of Abram Pettit, died this morning, in her 59th year. The funeral will be held Tuesday, at 3 p. m. An extended obituary will given Monday.

Mrs. George W. Beyen. Mrs. Sophronia M., wife of George W. Bevea, of New Vernon, died at the home of her daughter, Mrs. Bradner Hulse, 18 Benton avenue, at 8 o'clock, this morning. She came to this city in March last to visit relatives and while at her daughter's was taken seriously ill with heart trouble from which she had suffered for s-veral years and which made it impossible for her to return home.

Mrs. Beyes was the daughter of the late Benjamin Wickham and Sophia Roberts Corwin and was born at New Vernon, N. Y., June 13, 1833. Hersisters, Mrs. Helen M. Penny and Mrs. A. A. Seybolt, died in this city years ago; also her brother, Henry R. Corwin.

She is survived by her husband, Geo. W. Beyea, and two daughters, Mrs. Bradner Hulse and Mrs. Wickham Dolson, residents of this city. Her son, Winfield Scott Beyea, died Dec. 21, '97, at New Vernon, N. Y. The deceased leaves two brothers, John E. and Speacer W. Corwin, who reside in this city.

Short funeral services will be held at the residence of Bradner Hulse, 18 Benton avenue, at 10:30 a. m., Tuesday, with services later in the Baptist Church at New Vernon at 1 p. m., Tuesday, May 24th, '98. Interment in the New Vernon Cemetery, New Vernon.

High Prices for Cows in Delaware Co.

The low price of milk and butter has no apparent effect on the prices that are paid for cows. In Franklin, Delaware county, James Payne sold ten, Monday, for \$400 and John J. Dewey sold six at about the same price.

SPANISH VIEWS AND THEORIES.

VALENCIA, May 21 -It is believed that Cervera's only object in putting in to Santiago was to coal and communicate with Madrid and it is thought he has un-

doubtedly sailed again. Public and technical opinion is unanimous in advising the government to send the reserve fleet, troops and artillery to Manila to break up the blockade, destroy Dewey's fleet and recapture Cavite.

CERVERA'S MISTAKE.

London, May 21.-The best expert opinion among naval authorities in London is that if Cervera has gone to Santiago de Cuba he has made a fatal mistake, for Sampson can detatch his heavier vessels to watch the ships in the harbor, while the lighter and swifter vessels can be added to the fleet blockading Cuban ports.

NO MORE SHIPS TO ENTER HAVANA WASHINGTON, May 21-The govern-

DR PAUL H. COLLINS,

There is no branch of the bealing art wherein the difficulties encountered by the physician are so numerous and trying, as in that large class of ailments known as chronic, from which so many suffer without hope or expectation of final recovery. The treatment of this class of disorders has long been considered both by the profession and the general public as properly constituting a distinct branch of medical practice, a true and well defined field for the specialist. The progress of medical science like all other sciences has so enormously widened the field as to make it utterly beyond the power of the individual practitioner to become master of all branches. This makes the specialist a necessity and it accords both with reason and common sense that one who persistently and intelligently devotes his time and energy to the study and treatment of one class of diseases must of recessity become more proficient and successful in dealing with them. Dr. Collins has devoted twenty years to the almost exclusive study and treatment of chronic or lingering diseases, especially the various forms of dyspepsia or indigestion from which so many of the ills of life arise, and diseases and derangements of the nervous system and the blood, and his experience and success have convinced him that a great majority of so-called incurable diseases only require skillful treatment and guidance to ensure perfect restoration to health and to that end invites all chronic sufferers to consult him at the Madison House, which they can do free of charge until turther notice. Dr. Collins will give a series of illustrated lectures free, on the subject of health, during his stay in this city. Office hours 47eod&wJun13 9 a, m. to 9 p. m. -

Thorwaldsen's famous "Lien of Lucerne," cut in living rock, is crumbling and cracking away, owing to the infiltration of water in the sandstone cliff, of which it forms a part. It is to be preserved by isolating it from the main body of sandstone and draining the ground around it.

In the heart of the little California town, Santa Barbara, a valuable discovery had been made to the effect that the heights of Castle Point were a long time ago an Indian burying ground. Excavations have revealed bones, spearheads, stone implements, arrows, shells and beads, which are believed to be of prehistoric origin.

The annual charge of \$37.50 for telephone service in Berlin will in future be replaced by a yearly rent of \$12.50 for the apparatus, plus the small charge of one pfennig (about one-fourth of a cent) for each conversation by private persons, 2 pfennigs for business men and firms and 3 for clubs, cafes, etc. Business men are strenuously opposed to the proposal that they be charged more than any others.

Twenty-eight million tons of coal are mined annually in France, while 38,-500,000 are consumed. France, therefore, pays to the foreign countries annually about \$30,000,000 for this excess of coal. The total water power in France is estimated to be 10,000,000 horse power, which is about equal to the combined power of all the steam engines in the world, but at present only one-tenth of this water power is used.

RINGS FOR THE EARS.

The custom of wearing earrings has come down from the earliest time Among the Athenians it was a sign of nobility to have the ears pierced.

It is said that earrings are coming In again, but few women nowadays will and disfigured with pendants.

Among the Phoenicians the wearing of earrings was a badge of servitude, the same custom obtaining with the Hebrews. The latter people said when Eve was expelled from Paradise her ears were bored as a sign of slavery.

The Egyptian women wore bangle hoops of gold in their ears, which were regarded as the wearers' choice possessions, and were parted from only under direst distress. The gold calf was supposed to have been made entirely from the earrings of the people

Among the Arabs the expression "to have a ring in one's ears" is synonymous with "to be a slave," and to the present day an Arab who has been conquered by another places a ring through his ear as a token.

The wearing of carrings was so general in Rome and the jewels were so heavy that there were professionals known as ear-healers, who tended the ears of ladies who had torn or injured the lobes with the weight of the pendants. At one time Roman men wore rings in their ears, while in Greece the children wore a ring in the right

THEIR ORIGIN.

The cauliflower came from Cyprus. The eggplant is a native of Asia, Africa and South America.

Mushrooms are native to all temperate countries in short grass.

Potatoes are native to Peru, and the Spaniards discovered them. From Spain they passed into Italy and Belgium.

Melons were grown by the old Greeks and Romans and were carried to America by Columbus. The watermelon is native to Africa.

The cabbage still grows wild in Greece, where it originated. Radishes were native to China, but have been

grown in Europe for centuries. Garlic came from Asia and has been used since the earliest times. It formed part of the diet of the Israelites in Egypt, was used by Greek and Roman soldiers and African peasants.

Brussels sprouts came from Belgium; beets are native to the southeast seacoast of Europe; sage comes from south Europe; rhubarb from China and Tartary. The arrowroot is from South America.

Cucumbers are native to the East In-Des and are grown in Cashmere, China and Persia. They were much esteemed by the ancients and are common in Egypt, where a drink is prepared from them when they are rise.

A man cannot straddle A man cannot straddle the fence when it comes to the question of good health or ill health. Either he marches under the flag of health or the banner of death. It is the simplest thing in the world to gain and keep health, if men and women only will. For that reason it is almost incredible that men and women will continue to

ble that men and women will continue to neglect their health even after they must realize that they are marching under the banner of death.

The great majority of diseases have their inception in indigestion, biliousness and impure blood. Among these diseases are deadly consumption, nerve-racking, brainwrecking nervous prostration and exhaustion, body-torthring rheumatism, insanity-breeding neuralgia, emaciating malaria and all manner of disfiguring blood and skin diseases. Dr. Pierce's Golden Medical Discovery is a cure for all these diseases, if taken in anything like reasonable time. It is not a cure-all, but cures the diseases men-tioned for the reason that they are caused and aggravated by the same disorders. It makes the appetite keen, the digestion perfect, the liver active, the blood pure and builds firm flesh and healthy nerve fiber. Don't be wheedled by a penny-grabbing dealer into taking something else.

"Dr. Pierce's Golden Medical Discovery cured me of a severe case of poisoning of the blood," writes Mrs Sella Ricca, of Coast, Santa Cruz Co., Cal. "Bolls, one after another, would break out on my arms, and were very painful I have tried the loudly praised sarsaparillas without any benefit whatever, and not until I took the 'Discovery' did I get well. That was two years ago, and I have not had a boil or sore of any kind since."

War Veteran's Reeds Recognised and Supplied by an Enterprising Drammer.

A crowd of drummers were talking in the corridor of a hotel the other day. according to the Louisville Commercial, when one of them said:

"Speaking of war reminiscences puts me in mind of an experience I had while traveling through Indiana. I struck a little town in the southern part of the state. I don't remember the name, but it might have been Legtown. No one but old soldiers live in the place. Not a man among them, even including the mayor, had a good pair of legs.

"I was selling shoes and the first place I struck was owned by a merchant who had both legs amputated. He said he didn't think be could give me an order, because he was the only shoe dealer in the place and there weren't more than 30 men who had need for shoes. Even these, he explained, had only one leg each and when they wanted shoes they purchased only odd single ones. Every man in the place either walked on two crutches or one and some had wooden legs. "A great scheme at once struck me,

because I made up my mind not to leave the place without a sale of some kind. I wired to a crutch manufactory and told them I had found a place where I could make a big sale for them. They accepted the proposition, and after a canvas I soid \$500 worth of crutches and 'This was one of Indiana's towns

that sent all of her citizens to the late war and made the companies from that state so numerous. I also learned that almost every man in the place drew pension and but few worked at all."

If You Want to Be Thoroughly Eng lish You Must Smoke a Dudbeen.

The latest from England is that the different railroad companies are being tormented to death by letters from women requesting the addition of smoking cars for women on the different railroads, says the New York Evening This naturally leads one to inquire:

Where is the British matron? Why isn't she forming a crusade and leading it against her refractory daughters, for the would-be smokers in public belong to the younger class of professional women who crave the solace of a eigar, cigarette or pipe as they ride up to London to their studios and offices. Smoking among the better class of

women in England is far more prevalent than it is in the United States. This may be due to the fact that women's clubs in London are more clubable than they The London women's clubs do not stop at gavel-pounding and an annual

Now that we have taken to copying everything English, even to their boots -we fought against the boots for years, but we are now paying double price for them-are we going to demand smoking cars, too? It won't add much to the attractiveness of the fin de siecle girl to have a briarwood pipe sticking

out of her hip pocket. But if it's English, we must have it, even at the expense of appearances. QUEER THINGS TO PUMP.

Pig Iron, Ends of Spiles, Cannon Balls and the End of a Tail Shaft Brought Up.

There are sometimes brought up by centrifugal pumps-which are used for dredging, for pumping up coal from sunken vessels, and for various other purposes-things that seem strange to be handled even by such pumps as these, designed to pump coal, and so on. An eight-inch centrifugal pump used by a wrecking company of this city to pump coal with has brought up

a piece of pig iron weighing 36 pounds. A pump with a 28-inch suction used in dredging at the Mississippi river jetties brought up two mushroom anchors, one of them weighing 80 pounds. It brought up ends of spiles 12 inches m diameter and 28 inches long. It pumped up sharks; a part of one pumped up on one occasion was five feet

Another eight-inch pump used for coal pumped up pieces of board 15 inches long, and a car coupling 12 inches long.

Large pumps used in dredging in the improvement of New York harbor brought up cannon balls and various other heavy objects, including the end of a tail shaft weighing 76 pounds. Hardships of War.

Capt. Burdick's advice to the members of troop A in Cleveland, O., to use silk underwear in case of war reminds the Boston Journal of Artemus Ward's "Touching Letter from a Gory Member of the Home Guard:" "Broadway, December 10, '61,-Dear Father and Mothcr: We are all getting along very well. We mess at Delmonico's. Do not repine for your son. Some must suffer for the glorious stars and stripes, and, dear parents, why shouldn't 1? Tell Mrs. Skuller that we do not need the blankets she so kindly sent to us, as we bunk at the St. Nicholas and Metropolitan. What our brave lads stand most in need of now is fmit cake and waffles. Do not weep for me. Henry Adolphus."

A Most Expensive Sermon. At a recent sale in Boston a copy of a sermon sold for \$1,000. The extreme rarity of the work, which is a copy of Robert Cushman's Plymouth sermon, gave it this value. The book contains an account of the Pilgrim settlement and is a small quarte of 19 pages, bound in erimson levent mornees extra, by Bedford, printed in London in 1662. Only five copies are known to be in est-

MN CAMP AT HEMPSTEAD.

THE 24TH IS NOW CO. I. FIRST N. Y. VOLUNTEERS.

: Mustered into the United States Service-A Long Wat in the Hot Sun While the Regiment Was Sworn In-Two wilcors and Eighty-One Men-: Rumors as to the Regiment's Destination-Likely to Go at Short Aoties-Wow a Stay-at-Home Escaped III Treatment.

> CAMP BLACK. HEMPSTEAD PLAINS, May 20, 1898.

The 24th Separate Company was mustered into the volunteer army of the United States as a part of the First Regiment, N. Y. Volunteers, at 2 o'clock, this afternoon. The men were called together at 10:15 o'clock and at 10.30 marched out on the large paradeground. Capt. Schuyler, the mustering officer, had not completed his work with Squadron A. and a long delay followed. We were The fifth company to take the oath and were sworn in as Company l. We were -compelled to wait until every man in the regiment was sworn in, the colonel being the last of all. The sun was hot and the wait was tiresome.

We were mustered in with eighty-one men and two officers, being one officer short. Harry Wagner took Oscar Constable's place, the latter returning home -owing to serious illness in his family. 'There is little doubt that First Sergeant .A. L. Decker will receive the appointment of lieutenant, for which position he was the unanimous choice of the company. This will leave one vacancy in the ranks, which it is understood cannot be filled until we arrive at our permauent station. What that station will be no one yet knows. One had it on "good authority"

that we start to-morrow (Saturday) for · Chip Munk (Chicamaugua) Park. Still another had it "from a reliable source" that we will start for Washington on Saturday. Yet another had it from a person whose "authority cannot be "questioned" that we are to remain here with the 69th and 47th to receive the mew volunteers who are to be mobilized . here in a few days.

The chances are that if we move it will be on a moment's notice and very little opportunity will be given to send word to friends. Col. Barber is auxious to get away from Camp Bl. ck, and will keep the men in readiness to get out immediately on receipt of orders.

The regular guard details are posted for to-morrow, and the fatigue duty details were also assigned so that it does not look as if we would leave to-morrow, but we cannot tell.

Visitors to-day were: John McWilliams, Hiram Tate, of the Warwick Advertiser, C. Z. Taylor, E. H. Rose, Mrs. W. I. French, Mrs. E. M. Deck r Mess Eina rerdon, Mrs. R. G. Sliter, Almarin Phil-

Ex-Assemblyman Zurn and friends of Brooklyn visited Christie Walters to-day. The men signed the state payrolls last night. They will receive pay for 18 days, from the the state. This means from \$22.50 to \$45, according to rank alone was without auniform and he was and time of service.

IN THE UNITED STATES SERVICE

The Mustering In at the First Provisionat Regiment to Which the 24th Company is Attached-Its Officers-The Companies That Comp se It.

From the New York Sun.

The First Provisional Regiment was mustered into the United States service. Friday. There was scarcely more than a corporal's guard of people around to see the np-State boys take the oath, but those few showed their appreciation of the loyalty and patrictism of Col. Barber's men by cheering each company as it was sworn in. The regiment marched on the field thoroughly equipped. One man without anything in the way of equipment. He was a good looking young gray suit of clothes, cut in the latest Of all the men who have been returned fashion. He was Ashton H. Potter, a attached to the First Provisional Regi-Martin and he and Potter were in college together. Spending au hour in Martin's tent gave Potter the soldiering fever.

"Say," he said to Martin, "is there any chancafor a tellow who doesn't know carry arms' from 'parade rest' in here?" "Do you mean it? Will you join us?"

asked Martin, eagerly. "There'll be the devil to pay," said

Potter, "but I'm going to do it." Potter went home, last night, but returned, this morning, enlisted, had a physical examination, passed it, signed the muster roll, marched out on the neld with the First Provisional, took the oath, and is to-night is a soldier in the United States army at a salary of \$13 a month.

The controversy over Capt. Denison, late of Company D, Tenth Battalion, was ended in two ways, Friday. Former First Lieutenant Gracie was sworn in as Captain of the company, and at a third physical examination by Gen. Davis and Major Maus, Capt. Denison was rejected on account of a weak heart.

The officers of the First Provisional Regiment sworn in, Friday, were as follows: Colonel, Thomas H. Barber; Lieutenant-Colonel, Horatio P. Staepole; Majors, James L. Chase and Walter Scott; Adjutant, Robert T. Emmett; Regimental Quartermasters, Bronson, Winthrop and Lewis Seymour; Chaplain, the Rev. Carl Schwartz.

The regiment is made up of four companies from Albany, constituting the Tenth Battalion of that city. They are Company A, Capt. Palmer; Company B, Capt. Staats; Company C, Capt. Roche: Company D, Capt. Gracie. The other two battalions are made up of separate companies, as follows: The 3d of Oneonta, Capt. Ferguson; the 33d of Walton, Capt. Martin; the 20th of Binghamton, Capt. Hitchcock; the 44th of Utica, Capt. Goodier; the 5th of Newburgh, Capt. Sheehan; the 15th of Poughkeepsie, Capt. Sagues; the 14th of Kingston, Capt. Tompkins: the 24th of Middle town, Capt. McIntyre.
